Meet our founder

Dear friends,

Here at Maple Organics, we believe in a better world. A slower, more caring and natural world in which families and nature co-exist with compassion.

I started this company inspired by my Mom's commitment to natural living. As a non-english speaking immigrant in the 70's, she had the wherewithal to not use hydrocortisone on me - an infant with severe eczema. Instead, she crafted a recipe from her homeland to heal my skin. That recipe lives today as Maple Organics Skin Therapy, a special blend of plant based inputs meticulously formulated to nourish the tenderest skin.

It is my sincere hope that you can feel the love and care we put into everyone of our Maple Organics Health Canada licensed products. Made for a better, cleaner and more compassionate world.

Our Certified Organic Promise

Organic is a labeling term that indicates that the product has been produced through strict and rigorous methods. The organic standards describe the specific requirements that must be verified by a USDA-accredited certifying agent before products can be labeled USDA organic. It is the highest standard of purity in the body care industry and encompasses the vast majority of “green labelling” and more. Overall, organic operations must demonstrate that they are protecting natural resources, conserving biodiversity, and using only approved ingredients in the production of their products.

"I wanted to personally thank Maple Organics for their Skin Therapy product. This has helped hydrate/protect my skin like nothing other. I love how it's all natural and organic ingredients. I have suffered from eczema on and off most of my life. It's a constant battle and working as an RN at times has made it a bit difficult BUT Skin Therapy has helped by acting as a barrier to protect my skin now."

Skin absorbs almost everything you put on it. In contrast to conventional over the counter ointments that are often petroleum-based, our therapy products are plant-based. They absorb deep into your skin allowing for proper medication, protection and healing. High quality, certified organic botanicals that you can trust to take care of you in the safest way possible.

Maple Organics replaces the chemical filled ointments in your medicine cabinet with effective plant-based equivalents. We reverse engineer common products to determine the active medical ingredients that we source from plants. We then suspend them in a rich organic base.

"Muscle Therapy is my new magical drug that's not a drug! I've always had shoulder problems that come and go when I workout and last week I remembered I had Maple Organic's Muscle Therapy in my cabinet. Loved the warm soothing feeling when putting it on but even more, I love that the next morning the pain was gone! Two days later I used it on my back and same results! This is my new favourite go to for aches and pains!"

Nourish Skin System

Massage Skin Therapy all over your body. This sends moisture to the deepest skin. Enjoy the balm and allow it to soak in.

In the shower or bath, apply 8-10 pumps of our body wash on cloth. Make circular motions as you remove any Skin Therapy residue from the surface of your skin.

Towel dry and seal in all the goodness with a light application of our Hydrate Body Lotion.

3 STEP NOURISH

**BABY
CARE**

1. Massage baby with moisture balm. Let soak in 5-10 minutes.
2. Apply 8-10 pumps of baby wash and clean baby top to tail.
3. Seal in the goodness with baby lotion.

"Our gorgeous baby girl who is nearly 1 year old and has sensitive skin is really enjoying the pre-bath massage with Maple Organics Baby Moisture Balm. The lavender scent is calming and ensures a good night sleep for all. I would definitely recommend giving it a try as a nice addition to your baby's bedtime routine."

Nourish Hair Care

Detoxify, nourish and protect your hair. Our hair therapy process begins with the application of our Rejuvenating Hair Oil with a handmade solid sandalwood comb; together they condition the hair shaft, stimulate the scalp and encourage the growth of healthy hair while supporting and enhancing hair elasticity. The second step is the application of our Eucalyptus Shampoo for Normal Hair or Dry Hair; surfactant and sulphate free and made with rosemary to balance and nourish hair and scalp. For oilier scalps, we also make a Berry Tea Shampoo Bar, a long lasting plastic free product. Our conditioner, made of apple cider vinegar and lemons is spritzed on the hair and rinsed after 2 minutes. The final step is the application of our Rejuvenating Hair Oil to the ends of the hair shaft; sealing the ends of the hair to help prevent breakage and split ends.

- **BERRY TEA SHAMPOO BAR**
- **REJUVENATING HAIR OIL**
- **SANDALWOOD SCALP MASSAGE COMB**
- **APPLE CIDER CONDITIONING RINSE**
- **HAIR TREATMENT BUNDLE (INCLUDES SHAMPOO, RINSE, OIL AND A COMB)**

I wish I could post a photo of my hair, but seriously since using the Hair Therapy system my hair has never been stronger, thicker and shinier. It's like when I was pregnant (1. I'm not pregnant :) & 2. If anyone has been pregnant before it's like your best hair EVER). You end up losing this lush hair after the baby comes and I did lose a lot after my daughter was born and in 2 months of using the products I have noticed new hair growth around my hair line. The 2-4 weeks while your hair re-balances to a natural product was tough but so worth it! Never going back to my old shampoos and conditioners.

Essential Oils

Our essential oil promise:

At Maple Organics, we are committed to bringing you organic, pure and effective healthcare products. We have taken out the guesswork of essential oils. Working with Health Canada, we have created organic essential oil rollerballs carried in premium grade Organic Camellia Oil. We have kept the ratio at Health Canada approved proportions so you can be assured your products are safe and effective.

From my family to yours,

Rosy

Rose Beauty Oil

Made only with the finest: Organic Japanese Camellia Oil • Organic Castor Oil • Organic Grapeseed Oil • Organic Sea Buckthorn Oil • Organic Bulgarian Rose Oil • Organic Jojoba Oil • Vitamin E

Helps **improve skin's density and surface** with a high amount of rare palmitoleic acid (omega 7) for **nourishing & protecting** the skin. It also contains palmitic acid, stearic acid, oleic acid, alpha-linolenic acid and linoleic acid. Our natural orange hue is due to the carotenoids which provide **radiance and glow**, beta-carotene which **repairs and prevents premature ageing** and lycopene of cold pressed sea buckthorn oil which helps **prevents breakouts and inflammation**. Our special blend of Jojoba and Grapeseed oil contains **moisturizing** omega 3, 6, 7 & 9 fatty acids that help to **protect the skin from aging free radicals** which can cause discolouration.

If I had to only recommend two fave products (even though I love everything I try) it would be the foaming facial cleanser and the rose beauty oil. My skin feels soft, hydrated and looks great!
